Music Education & Performance
Abilene Christian University, 2015

Master of Music
Vocal Performance & Literature
Eastman School of Music, 2018

PROJECTS

PORTFOLIO | www.kaleighsutula.com
- Designed with Figma, with a color palette inspired by the harvest moon/night time to showcase my skills and projects.
- Created with HTML, CSS, jQuery, and Tailwind and hosted with Microsoft Azure CI/CD pipeline.
- Features an interactive side navigation, mobile-first responsive layout, and a contact form powered by Azure functions.

THE COMPOSER CRAWLER | www.thecomposercrawler.com
- Designed as a tool for music students to quickly access essential information about popular composers.
- Created with HTML, CSS, JavaScript, React, and Supabase with data extracted from the Wikipedia API.
- Built by transforming unstructured data of 2022's most viewed composers from the Wikipedia API with JavaScript, then expanding and uploading the data into Supabase

QUIZ OR QUIT? | kmsutula.github.io/quiz-or-quit/
- Designed to mimic 80s video game aesthetics, this application provides you with a quiz about a topic of your choosing and gives feedback on your answers.
- Created with HTML, CSS, JavaScript, React, Framer Motion, and powered by API calls to the Open Trivia Database.

EXPERIENCE

CHOIR DIRECTOR
DEER PARK ISD / HUMBLE ISD | 2018-2022
- Provided student and teacher support with Apple and Windows products
- Designed programs, t-shirts, tickets, and other graphic elements for the choral program using Microsoft Word, Adobe Photoshop, and Illustrator.
- Recorded and edited asynchronous lessons to accommodate digital learning, as well as managed and hosted Teams meetings for instructional purposes

IT SUPPORT SPECIALIST
SCHLITTERBAHN GALVESTON ISLAND | 2007-2016
- Assisted with the completion of help desk tickets, troubleshot and resolved desktop issues and externals issues
- Maintained, updated, and managed inventory and software for 100+ registers and computers
- Performed troubleshooting and repaired peripheral devices such as receipt printers, scanners and id printers.
- Completed routine and complex software installations, assisting users of various levels of computer sophistication in operation of new and existing software.
